Your experience

England is the birthplace of the English language, and learning English in London or Canterbury will give you plenty of opportunities to communicate with native speakers. But we understand that many people do not only need to learn English to speak to English people - it will often be a useful common language to communicate with other nationalities.

That is why we think it is so important to have a multi-cultural mix in our groups. In fact, in an average year we have clients from over 80 different countries come to study with us. This helps people get used to hearing English spoken with a range of accents and understand other people’s different styles of conversation and ways of doing business.

Some clients join us for just a week, others stay a whole year! About 20% of our clients come back to study with us again. Many are happy to recommend us to their colleagues and friends and even send other members of their family to take our classes too.

We would like to share some of the things our international clients have written about their time at the school.

We are proud of our trainers here. They are skilled, with many years of teaching experience and are loyal to the school – the average length of time working here is 11 years. We know our trainers provide every client with highly effective lessons, and when you read reviews of our school, you can see that our clients think so too!

The trainers’ average age is 48 so they often have relevant work experience outside the teaching environment. Some have worked in business: HR, marketing, management. Others have a professional background of law, finance and journalism. This knowledge brings depth and authenticity to our specialised classes.

We never use external companies to provide our trainers, we only ever use members of our trusted team. Our staff stay up to date with the latest language learning developments so that they can deliver fresh and effective lessons.

From the first day, you and your trainer are a team working towards your personal goals. We’re ready to support you in a creative and dynamic environment, so bring your energy and enthusiasm!

CASE STUDY

Lola already had an excellent understanding of English, but she found that clients and colleagues sometimes misunderstood her.

“I’m French and I am only working with British people and they would say that my accent was very strong. I wanted to soften my accent and wanted private lessons to tackle this problem.”

We arranged for Lola’s trainer to travel to her office to give her lessons. This meant Lola could fit them in to her busy working schedule. Her trainer used many different tools and exercises and taught her how to practise after lessons. While she was with her trainer, Lola received regular feedback and corrections, and they used materials that Lola would be using for her work.

“I practise what I learned from Ingrid before any big presentations and I can feel it helping with my accent.”

CASE STUDY

The clients needed a one-week special course to prepare them to attend a United Nations Human Rights Committee Hearing. We created a bespoke course with closed group classes in the mornings and individual tuition in the afternoons.

“My impression was that it was truly tailor-made; the content was specifically made for us. Laura, our group trainer, had a proposal and we felt that we could give her feedback, and there was room for changes. It was really good that she had put so much energy into it and had made a plan because I’m not sure we would have been able to identify all the issues we needed to work with.

She put an impressive amount of work into it, and I would say that there was not one exercise in the whole of this course that was not relevant.” – Aira, Ministry of Health and Care Services

“We also sent a webcast of the previous hearing and I think she watched the whole thing through – several hours - and she gave us feedback on the language that we used in that hearing.” – Thea, Ministry of Children and Equality

The combination of closed group courses and one-to-one training allowed them to focus on both their group and individual needs for maximum progress.

“For me, my individual tuition was complementary. It seemed the teachers had been talking together and about my needs. I was given very interesting articles that I’ve been discussing with them. It was just to the point on my needs.” – Cecilie, Ministry of Local Government and Modernisation

“During the first conversation with my individual trainer, I came to realise there were other things I need to work on, so if I was to only work on what I had actually asked for, it wouldn’t have been so successful for me.” – Thea

“I’m very glad you’re asked to only speak English throughout your time at the school. You read English, you hear English, you speak English, and you get very motivated after a week when you can measure your own progress.” – Aira

“We have gone through so many exercises and I have made so many pages of notes that I can go back and look in to when I have some questions in the future.” - Cecilie
‘I stayed with a British family who was very friendly and polite and spoke a lot to me about various topics including finance, politics, etc. And at dinner they taught me new British idioms.’

Accommodation

Choosing the right type of accommodation is important – being comfortable and relaxed in the place you stay will help you make the most of your time with us. We have four main accommodation options:

**Homestay**
Stay with one of our handpicked local families and get a real feel for British life – with plenty of additional language practice! Standards are high, so this option is suitable for anyone ready to make the most of the opportunity.

**Hotel**
Some of our clients prefer the convenience and facilities of a hotel. We have negotiated competitive prices with four-star and five-star hotels close to our centres in both London and Canterbury.

**Residence**
In London, a modern residence within walking distance (or a short bus ride) of our centres is available to book all year. All rooms have en-suite bathrooms and a small kitchen. It also offers great communal areas to meet other residents. In Canterbury we can book rooms for you at a local residence during the summer months.

**Serviced Apartment**
An independent apartment with a hotel-style cleaning service might suit your needs. Rooms are usually larger than hotel rooms and prices a little lower. All the serviced apartments are in excellent locations near our London centres.

Every week among the new arrivals we welcome back clients who have been with us before, some of them many times. We also regularly receive visits from alumni who want to see the school again or show their families where they did their course, often many years ago.

Some returning clients talk about how much their English improved during their time here. Others talk about the interesting social programme, and how it allowed them to use their English, make friends and enjoy exploring London or Canterbury.

So what makes their stay so memorable that so many keep coming back?

Yes, we have excellent staff, great locations and facilities, and the lunches are certainly something to remember. It’s just as much because of their overall experience though; the warm, welcoming atmosphere, the wonderful sense of community, the great mix of nationalities, cultures and people you can meet here, and the friends you make. Coming back is like coming home.
‘It was a fantastic and unforgettable experience. For anyone who wants to improve his/her English, the London School of English is the place to be!!!’
